**Re: Everett Smelter Site –Final Design Report  
Ecology Enforcement Order #02TCPNR-4059**

Dear Dave:

Asarco is submitting two revised copies the above referenced document to Ecology. Comments from Ecology have been incorporated into the document. Two CD's with the electronic files are also enclosed. Only replacement sections that were addressed in comments are being provided to update the previously submitted report, instructions for making the replacements are attached.

If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "David K. Nation".
